---> Comment Text :
I believe that moving this high level radioactive waste is absolutely a bad idea. After considering all the points that were brought up in last night's hearing, I still stand in opposition of this Yucca Mountain Project. I am a student of Durango High School, Las Vegas. I am worried about what will happen if one of the transport trucks all over the freeway and many people are exposed to radiation.... My number one concern is the safety of my community. I would not like to die of cancer, even if I am compensated with money, that does not replace the value of a life. The DOE should seriously consider the safety of the people of Las Vegas.
